Frequently Asked Questions: Curriculum Map Loma Linda University

Do we have to fill out the information for the LLU Student Learning Outcomes (SLOs) in addition to our Program Learning Outcomes?

Yes. The university's SLOs need to be addressed across the campus in all programs. All of the SLOs should be addressed within a program's required courses to make sure that students have achieved them.

!

How do we decide which level (I, E, or A) should be entered for a program outcome?
